ACADEMY

Workshops in Laser Medicine

LIPOLYSIS, HYPERHIDROSIS & ENDOVENOUS LASER ABLATION

Locations

Private practice in Croatia
Private practice in Slovenia

Date

27 – 28 May, 2019

Overview

The entire workshop covers the use of Fotona's laser systems in Lipolysis, Hyperhidrosis and Endovenous Laser Ablation.

The procedures are presented in greater detail in separate program segments. Through demonstrations with hands-on opportunities in a surgical setting and led by experts in their fields, participants are instructed in the particularities of each procedure. It is the aim that participants gain a full understanding of the complete procedures and receive the most current best practice guidelines. This includes covering risk assessment, anesthesia options, surgical technique and control, and post-operative patient guidelines.

Objectives

- Learn how to perform Laser-assisted Lipolysis
- Learn how to perform Endovenous Laser Ablation
- Learn how to perform Hyperhidrosis
- Understand laser physics and laser-tissue interactions.
- Understand the effects of the different parameter settings and how to identify ideal settings for specific conditions and applications.
- Learn how to gain the maximum benefit for your practice from Fotona laser systems
- Learn tips and tricks from laser experts

All participating principle lecturers are certified Expert Clinical Lecturers of the Laser and Health Academy.

The **Laser and Health Academy** is an independent institution, developed and founded with Fotona's support, with the aim to advance medical, technical and scientific knowledge in the field of Lasers and their application in Medicine and Dentistry. It serves as a platform for the exchange and dissemination of scientific knowledge among peers and to promote evidence-based laser medicine and dentistry among practitioners and the general public.

The Academy's key activities center on practical instruction and demonstration of laser techniques and procedures. These are delivered through a variety of workshops, seminars and specialized events either at the Laser and Health Academy's own training and demonstration facility or on-site at the surgeries and clinics of Laser and Health Academy Lecturers.

Visit www.laserandhealth.com for more information about the Academy's activities and more on the use of lasers in medicine and dentistry.

Places to stay

Ljubljana has a wide range of accommodation offerings to suite everybody's taste, needs and budget. The following hotels are particularly popular with our workshop participants and are recommended by us. A wider offering of accommodation can be found on www.visitljubljana.si.

Pleasant and modern hotel just minutes' walk from the city center

Luxury, 4-star hotel offering an unforgettable stay in Slovenia's capital.

Since 1964 **Fotona** has been a pioneering, laser technology company. Our laser systems are the result of over 55 years of experience and of our know-how and expertise in the fields of medicine, communications, industry and defense. When you choose Fotona you choose the highest performance, best-made laser systems in the world.

Ljubljana is considered a city that suits everyone from its inhabitants to its numerous visitors. It maintains the friendliness of a small town and at the same time possesses all the characteristics of a metropolis.

Due to its geographical position, Ljubljana also represents an ideal starting point to discover the amazingly diverse features and beauty of Slovenia.

www.ljubljana-tourism.si

Slovenia lies at the heart of Europe, where the Alps and the Mediterranean meet the Pannonian plains and the mysterious Karst.

As a small, beautiful and picturesque country, Slovenia makes a great tourist destination.
